Dear Applicant:

The staff has under consideration the above-captioned application for a minor modification of station WTZX(AM).

A preliminary engineering review of the application reveals that the proposed nighttime 0.025 mV/m-10% skywave contour would increase overlap the 0.5 mV/m-50% skywave contour of co-channel Class A station CJBC, Toronto, Ontario, in violation of US/Canadian AM Broadcast Agreement. (See attached exhibit).

Accordingly, further action on the subject application will be withheld for a period of thirty (30) days from the date of this letter to provide you an opportunity to submit an amendment. Failure to amend or respond within this time period will result in the dismissal of the application pursuant to Section 73.3568. Please note that any amendment must be submitted in the same manner as the original application.

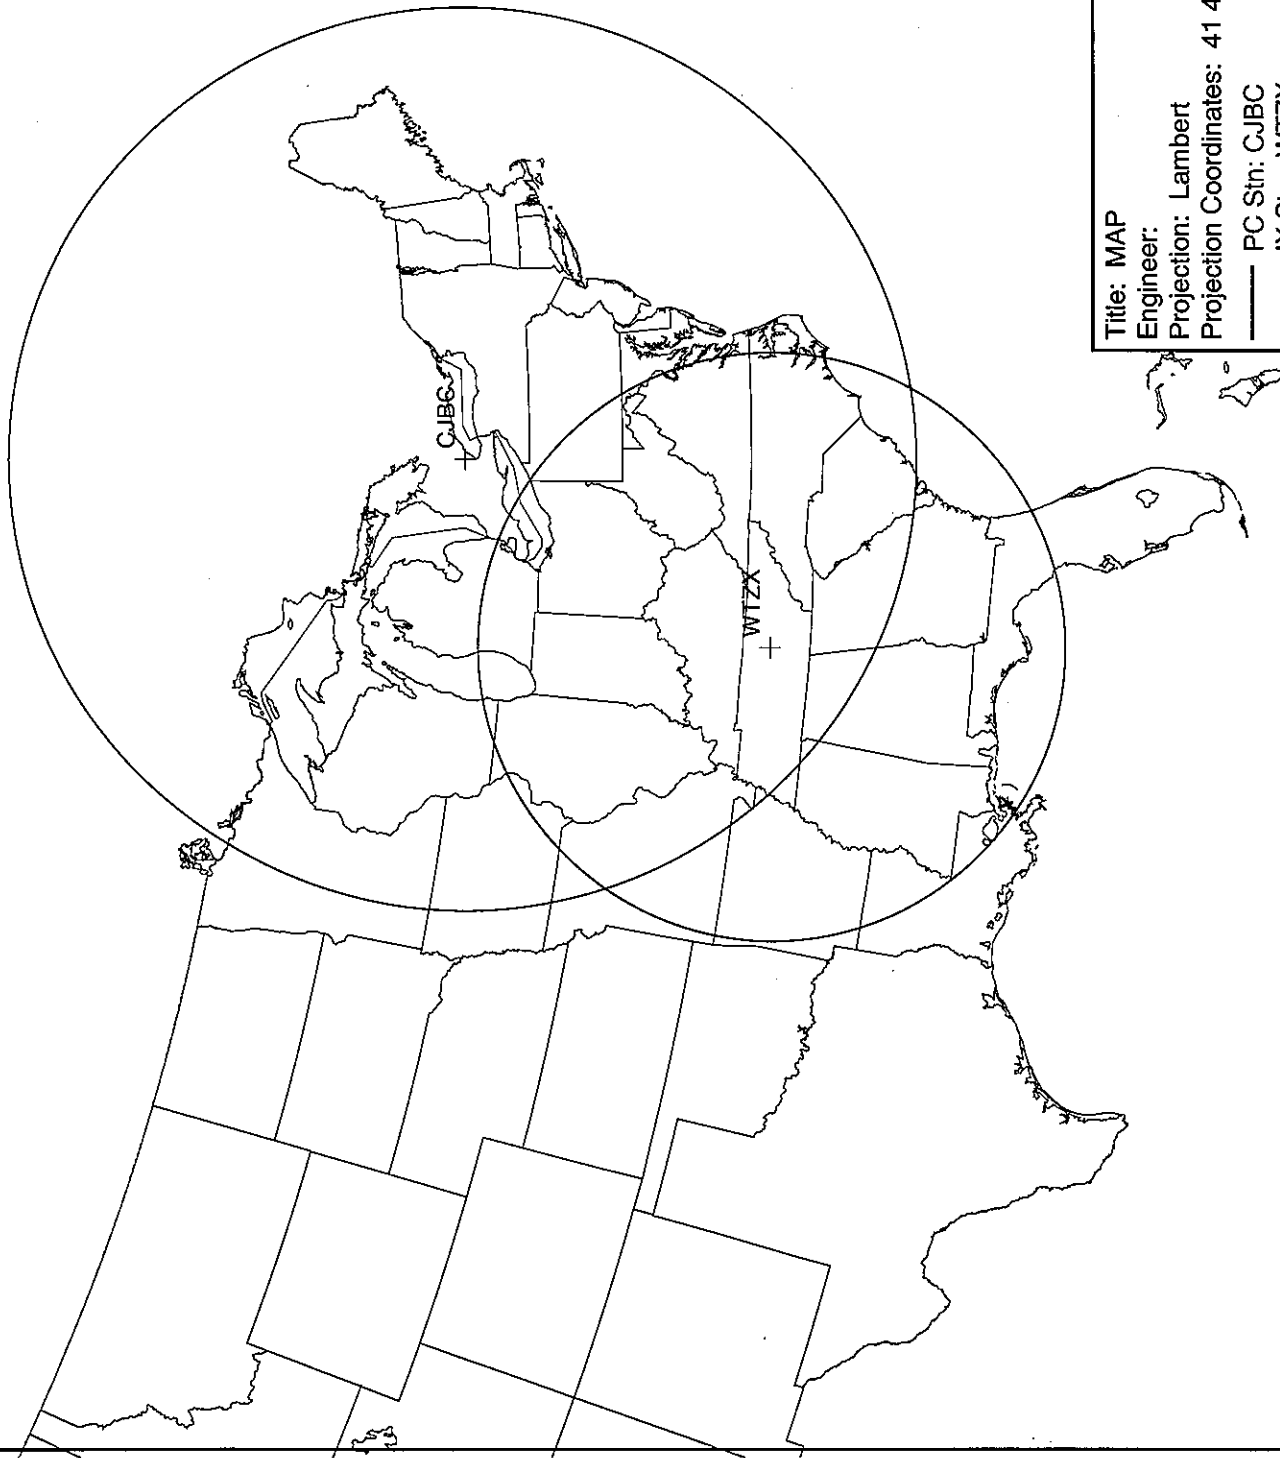

Sincerely,

Son Nguyen
